DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3 and 10 are rejected under 35 U.S.C. 102(e) as being anticipated by Wallerstein et al (US 6,597,520). Wallerstein et al teaches an objective having a first mirror (215) and at least one second mirror (221) and at least one lens (206) where a barrel in which the lens is anchored is formed by a supporting body of the first mirror (215) where with the exception of its front lens, the lenses of a lens system (208) are mounted in an intermediate barrel which is inserted into the barrel of the mirror. The mirrors (215, 221) and lens (206) have a common optical axis (201). The beam path in the objective extends from the first mirror (215) via the second mirror (221) to the lens (206).

Claim Objections

Claims 4-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend upon another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.
